If your child has very low vision, he or she may be eligible for special services provided by the New York City Public Schools.

Educational Vision Services

The New York City Public Schools provide specialized educational services for students who are blind or visually impaired. Students are eligible if their best-corrected vision in the better eye is 20/70 or lower, or if they have specified visual impairments, such as macular degeneration, retinopathy of prematurity, optic atrophy, high myopia or albinism. Services are designed to give students access to the general curriculum, and to participate in general or special education classes at the highest possible level of independence. Available services include:

- Functional Vision Assessment
- Braille
- Large print reading materials
- Training with low vision devices
- Specialized adaptive computer technology
- Provide visual accommodations and support to student to access the curricula in all subject areas
- Instruction in orientation and mobility for independence in travel
